Dated at Mumbai the, 09.10.2017

To,

1. All DGMMs in WTR.
2. Dy. General Manager(Finance)
WTR, Mumbai.

Sub.:- Agenda for the Circle Council Meeting of WTR.

Kindly find enclosed herewith the Agenda for the Circle Council Meeting of WTR, received from Secretary Staff Side CCM WTR. You are requested to furnish the point wise reply before 16.10.2017 possitively.

Encl. : As Above.

Asstt. General Manager(Admn.)

Copy to: PGMM WTR, Mumbai / Ahmedabad / Bhopal.

1) Building repairing Maintenance & Painting: -

a) FTN II, 11th floor equipment room roof leaking 365 days since past so many years. After repeated reminders, MTNL/BSNL civil wings tried but no fruitful result. On 12th floor, there are two MTNL Quarters. In non-rainy seasons, their toilet water comes which gives very bad smell. This point was also raised in the last CCM but even after assurances no break through. Due to these conditions it is very difficult to carry out system diversions as all FDF are at this place.

b) Tekdi Bangalow Thane building is having leakages almost everywhere which makes to carry out the routine work very difficult. The situation is also known to DGM Thane. The painting and maintenance work of residential quarters is not carried out from outside which makes living very dangerous.

c) Kolhapur CXL building toilet is leaking and painting work also not done since long. The surrounding ground have large grasses which endangers the chances of poisonous animals to enter in the equipment room like snakes, lizards etc. Timely cutting of grasses will make the atmosphere clean and non fearing.

2) Reshuffling of Non Executives: -

Due to retirement of staff on large scale, there are many places which gets extra burden of work like clerks. If local reshuffling is adopted, then they may get relief and others may get chance to share the workload. So local reshuffling is required in all cadres.

3) Maintenance & New Purchasing: -

a) In field units there are so many places where OTDR/Splicing machines are faulty or not working properly. In these places repairing of these equipments should be done immediately or if they are irreparable then new purchases may be done for fast restoration of telecom services.

b) In route so many Vehicles are either faulty or their life has expired but still we are using it by incurring huge maintenance expenditure. Even then though condition is worst and because of that our route party sometimes not able to attend the fault immediately due to which our revenue is lost. It is requested to purchase new vehicles immediately or make the old one in up to date condition for quick restoration of route faults.

c) For A/C Maintenance at exchanges, contract is being given. But their staff is not maintaining it at all due to which sometimes we are using fans for cooling the systems. At FTN II, 11th floor A/C units are lying without installation since past 8 months and at that place important traffic is moving. But due to lack of cooling, cards are getting faulty very frequently. Our Union demands to install it at an earliest to stop the major disaster which may happen in future.

d) In some places there is a great need of computers, fax machines. Our demand is to provide computers with internet facility, fax machines to these places immediately. Also to mention that all old fans, Tube lights, bulbs should be replaced with new fans, LED tube and bulbs etc.

4) Confirmation letters; -After 1997, those Casual Labors who got confirmed, they are still awaiting their confirmation letters. It is our demand to issue their confirmation letters immediately as those who are retiring their cases are not getting settled. Their service book entries are yet to be done.

5) Medical issues: -While getting indoor treatments, some Hospital do not have some testing facilities due to which they are getting it done from other hospital. At that time employees are

paying the charges from their pockets. But at the time of bill settlement our accounts section rejects those bills for indoor treatment insisting it to submit in outdoor bills. Our demand is to settle these bills along with indoor bills. Issue suitable instruction to do so to the accounts department.

6) SSA RAOTATIONAL Transfer: - In many SSA, rotational transfer orders are issued from time to time in which our WTR staff are also included. But since we are on deputation in WTR, our transfer order should be governed by WTR authority. Our demand is that please issue instructions to respected controlling officers in WTR not to follow these orders.

7) Adverse entries in CR: - In some officials CR adverse entries are made but officials is not known to it. At the time of his promotion, he comes to know the same. Our demand is that it should be as per the rules.

8) Provision of Union office at Ahmadabad: - After repeated reminders in the previous LCM/CCM meetings to provide union office at Ahmadabad, still the matter is lingering, although the place has also been identified. Our demand is to provide union office at Ahmadabad with all infrastructure for smoothly carrying out the union activities.

9) Provision of Dormitory: - Wherever 4-5 ladies staff are working, there should be dormitory for them. Except Prabhadevi, now here it is provided. Our demand is for provision of ladies as well as Gents dormitory at FTN, Thane and wherever it is required.
